PISC

Reimbursement of Private Vehicle Costs - Official PISC Business

When a PISC member is required to use road transport in the pursuance of club business, they should in the first instance seek to use the club vehicle. This vehicle is insured under third party arrangements for any club member under the age of 70 years to drive, including the provision for towing a properly registered trailer. Prudent use of this vehicle should minimize the need to claim private fuel reimbursement costs. The most frequent users are likely to be the Safety Boat Manager, the Bosun, the vehicle manager at AG and RCH or his deputy.

There will be occasions, however, when club members are attending official meetings or courses on behalf of PISC. In such instances, every effort should be made to car pool to reduce cost. When a member's private vehicle is to be used, prior approval must be given by a committee member and the following rates will apply.

Nicosia, Dhekalia and Larnaca	€30 per round trip
Limassol	€15 per round trip.
Episkopi/Akrotiri/Laatchi	€10 per round trip.
Paphos and local area	Nil
